

PassportScan  
Cloud

# The Check-In Revolution

Optimize operations, increase efficiency, and enrich the overall guest experience.

# Mission & Vision

## Our Mission

Revolutionize the hospitality sector by offering innovative, frictionless check-in solutions that optimize operations and elevate the guest experience globally.

## Our Vision

To be the undisputed global standard for digital check-in, empowering every hotel to provide personalized, secure, and seamless guest journeys.

# Global Impact

Trusted by over 6,500  
companies worldwide.

15 years of relentless  
commitment to  
hospitality innovation.

Accelerates check-in  
by scanning identity  
documents in under 1  
second.

# A Global Presence with Local Expertise

# Timeline: From Idea to Global Standard

**1996**

Commercial debut of PMS Galaxy, pioneering and intuitive hotel management software for its time.

**2006**

Industry demand drives the exploration of OCR technology, birthing the Dynamic Form Fill (DFF).

**2008**

Foundation of PassportScan Ltd. in London, marked by a groundbreaking integration with Oracle (Micros-Fidelio).

**Today**

Revolutionizing the digital check-in landscape for hotel chains on a global scale.

# A Flexible Ecosystem for Any Infrastructure

## PassportScan Cloud

Centralized cloud platform for secure storage and document management. Global guest data access with guaranteed GDPR compliance.

## Integrations with PMS

Our API automates guest profiles and documents, accelerating check-in and improving operational efficiency, data security, and regulatory compliance.

## Dynamic Form Fill - DFF

Our pioneering connective plug-in designed to effortlessly exchange data between interfaces and core management systems.

# Transforming the Guest Experience

## Document Scanner

Secure, highly efficient acquisition of identity documents.

## Form Signing

Multilingual custom forms for privacy consent with PDF digital signatures.

## Self Check-In

Eliminate queues and empower guests with an intuitive online check-in process.

## Kiosk Services

Accelerate physical arrivals with autonomous, secure data capture and digital signing.

# Global Integrations

## Hotel Management

Fully integrated with the industry's best Property Management Systems (PMS).

## Government Systems

Direct connections to securely transmit sensitive data to national platforms.

## Statistical Offices

Automatic, frictionless data forwarding to National Statistical Offices (e.g., ISTAT).

## Police Integration

Compliant, automated forwarding of guest arrival data to local law enforcement (e.g., Alloggiati Web).
